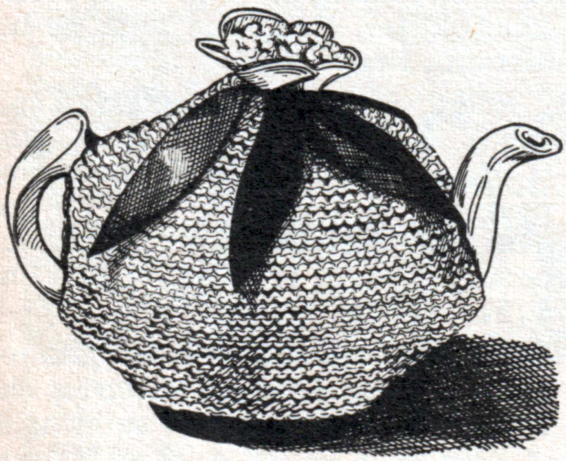
Knit Tea Cozy

A felt tea blossom and leaves decorate this easy-knit cozy. Put one on your tea pot to keep the last cup of tea as piping hot as the first. We suggest using Coats & Clarks' Red Heart Knitting Worsted, 4 ply. One 2-ounce skein in any desired color is sufficient to make a cozy. Use plastic knitting needles number 6. A small piece each of white and dark green felt will be needed for trim.

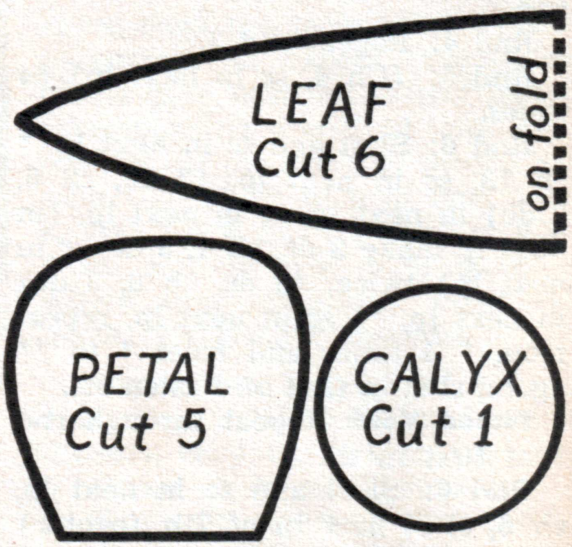


Abbreviations:

sts (stitches) k (knit)
dec (decrease)

Gauge: 9 sts make 2 inches
8 rows make 1 inch

Side Piece (Make 2)—Starting at edge, cast on 34 sts. Work in garter st (k each row) until piece measures 4½ inches. Dec 1 st at the beginning of next 10 rows. Dec 1 st at both ends of every row until 16 sts remain. Bind off 3 sts at beginning of next 2 rows. Bind off.



Press pieces through a damp cloth. Sew top edges neatly together to the first decreased row. Leaving a 3-inch opening at both sides, sew lower edge of side seams together.

Tea Flower and Leaves—Following

patterns, cut 5 white felt petals, 1 white calyx and 6 green leaves. Gather lower edge of each petal, having the side edge of one petal slightly overlap the adjacent side edge of next petal and the 5th petal joined to the first petal. Sew gathered edges of petals on top of the calyx.

Stamens—Make several 1-inch loops of yarn and sew to center of calyx. Sew flower at top of tea cozy as shown. Sew tip of each leaf around the flower under the petals.

Pan Holder

Make this pan holder as a gift or bazaar item, using American Thread Company's "Aunt Lydia's" Heavy Rug Yarn. It takes about one skein each of orange, spice and wheat or any other desired colors and a steel crochet hook size G.

Abbreviations:

ch (chain)	lp (loop)
dc (double crochet)	sl st (slip stitch)
st (stitch)	sc (single crochet)
sp (space)	rnd (round)

tr tr (triple treble)—thread over hook 4 times
sk (skip)

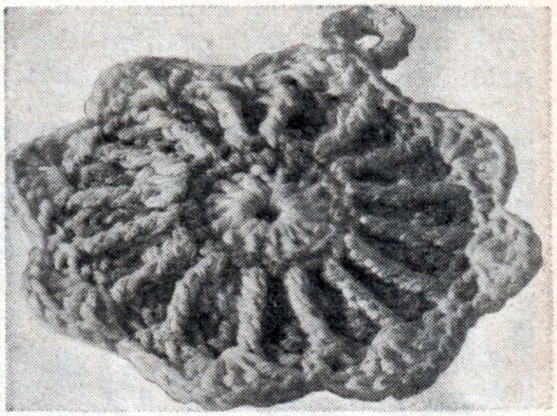
To begin and with orange, ch 6, sl st in first ch to form a ring, ch 3, 15 dc in ring, join in top of ch 3, drop orange.

Rnd 2: Join wheat in same sp (when changing color always complete last half of st with next color being used), ch 3, 2 dc in same sp, * ch 1, sk 1 dc, working into back lp of st only, 3 dc in next st, repeat from * around, ch 1, join, drop wheat.

Rnd 3: Pick up orange, ch 1, sc in same sp, sc in each of next 2 dc, * working in back lp of skipped st of rnd 2, work 3 dc in skipped st, sc in each of next 3 dc, repeat from * around, ending with 3 dc in last skipped st of rnd 2, drop orange, join.

Rnd 4: Join spice, ch 5, sk 1 st, dc in each of next 2 sts, * ch 2, sk 1 st, dc in each of the next 2 sts, repeat from * around, ending to correspond, join, cut yarn.

Rnd 5: Join spice in any front loop of rnd 1, work 2 sc in each st,



join, cut yarn (32 scs).

Rnd 7: Join orange in any sc of last rnd, ch 3, 6 dc in same sp, sc in next sc, * 7 dc in next sc, sc in next sc, repeat from * around, join, sl st to center dc, ch 10 for lp, sl st in same sp, ch 1, make 10 sc over lp, join, cut yarn.

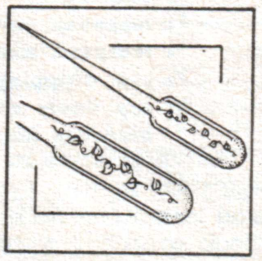
State Plaques

I glue pictures on fronts of pretty saucers and four inches of white grosgrain ribbon on back, doubling to make a two-inch loop, and fastening down ends with two lengths of electrical tape. I take snapshots of surrounding countryside, wild life or flowers and glue onto fronts of saucers. The saucers may be any design, antiques or plain. These plaques sell to tourists for souvenirs. They sell readily for $1 each.

Mildred Hughes



Shower "Tuck In"

This is a pretty simple idea but well liked. It also makes a nice "tuck in" for bridal shower gifts. I use an inexpensive letter opener, plastic usually, and decorate handle with a little paint, a decal or such to give it a kitchen accent. It can be used to open food packages, break tape on meat packages, etc. It saves finger nails and tempers. They sell quickly at 25c each.

The month of June brings many delights to the chef in the family. June is National Dairy Month and also the season for fresh berries.

Nothing is more refreshing on a hot summer day than a deliciously cool salad using strawberries or perhaps a dish of rich home-churned ice cream.

There are many varieties of milk products to refresh your family on hot days ahead, many of which require berries that are plentiful now.

Here are some recipes we think you will like. They were selected with the thought of keeping you cool and providing for all your nutritional needs.

Banana-Strawberry Shake

- 2 medium bananas
- 1 cup slightly sweetened fresh strawberries, crushed
- 1 tablespoon lemon juice
- 1 quart milk
- 1 quart vanilla ice cream

Mash bananas and combine with crushed berries. Add remaining ingredients and mix thoroughly. Or, combine all ingredients in blender or electric mixer. Serve in tall glasses garnished with fresh strawberries.

Buffet Ham and Vegetable Salad

- 2 tablespoons (2 envelopes) unflavored gelatine
- ½ cup cold water
- 1 cup hot water
- 1⅔ cups (large can) undiluted evaporated milk
- 1 cup mayonnaise
- ¼ cup lemon juice
- 1½ cups (10-ounce package) well-drained cooked peas
- ¼ cup chopped onion
- ½ cup finely chopped celery
- 1 cup chopped ham
- 1 cup grated, process-type American cheese

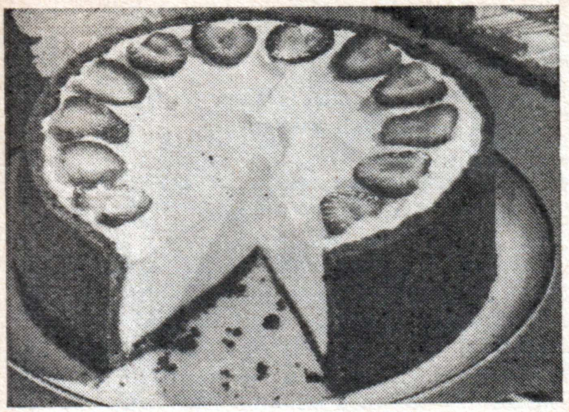
Soften gelatine in ½ cup cold water. Add hot water; stir until gelatine is dissolved. Slowly add milk to mayonnaise in bowl; blend well. Add lemon juice and dissolved gelatine to the milk and mayonnaise mixture. Chill until it begins to thicken. Fold in remaining ingredients. Blend well. Spoon into 1½-quart mold. Chill until firm (about 2 hours). Unmold and garnish with deviled eggs and tomato wedges. Makes about 8 servings.

Almond Bavarian Cream

- 1 envelope (1 tablespoon) plain gelatine
- 1⅔ cups milk
- 2 eggs, separated
- ½ cup sugar
- ¼ teaspoon salt
- ⅛ teaspoon almond flavoring
- ½ cup whipping cream, whipped
- ⅓ cup finely chopped, roasted blanched almonds

Soften gelatine in ⅔ cup cold milk. Beat egg yolks lightly. Combine yolks, sugar, salt and remaining milk in top of double boiler. Cook over hot water until slightly thickened, stirring constantly. Remove from heat. Add gelatine and stir until completely dissolved. Blend in flavoring. Cool until slightly thickened. Fold in stiffly beaten egg whites, whipped cream and almonds. Turn into one large or individual molds which have been rinsed in cold water. Chill until firm. To serve, dip mold quickly into hot water and invert on large plate. Serve with fresh strawberries or other fresh or frozen fruit and whipped cream. Makes 6 to 8 servings.

Note: ½ teaspoon of vanilla may be substituted for the almond flavoring and chopped almonds omitted. Top mold with flaked coconut or fresh fruit.



Sour cream and cottage cheese are the highlights for this creamy cheese cake.

Creamy Cheese Cake

- 1½ cups fine graham cracker crumbs
- ⅓ cup brown sugar
- ½ teaspoon cinnamon
- ⅓ cup melted butter
- 8 ounces cream cheese
- 1½ cups creamed cottage cheese
- 2 eggs, beaten
- ½ cup sugar
- ½ teaspoon vanilla
- 1 cup dairy sour cream

Mix crumbs, brown sugar, cinnamon and butter until crumbly. Press in an even layer over bottom and sides of a round, spring form pan or an 8-inch square pan. Soften cream cheese to room temperature. Press cottage cheese through sieve and mix into cream cheese. Beat in eggs, sugar and vanilla. Pour into crumb-lined pan. Bake in a moderate oven 350°, about 35 minutes. Spread with sour cream while still hot. Cool and chill. Makes 8 to 10 servings.

Summer Salad

- 2 envelopes unflavored gelatine
- ⅔ cup sugar
- ⅛ teaspoon salt
- 2¾ cups cold water, divided
- ½ cup lime or lemon juice
- 4 cups mixed fresh (peach slices, halved white grapes, blueberries and sliced strawberries)

Mix together gelatine, sugar and salt in saucepan. Stir in 1 cup of the water. Place over low heat, stirring constantly, until gelatine and sugar are dissolved. Remove from heat. Add remaining 1¾ cups water and lime or lemon juice. Arrange a small amount of the fruit in bottom of mold; chill until almost firm. Chill remaining gelatine mixture until the consistency of unbeaten egg white; fold in remaining fruit. Spoon on top of almost firm layer; chill until firm. Unmold on platter. Serves 10 to 12.

Crusty Cheese Loaf

- 1 1-pound loaf unsliced whole wheat bread
- 1 cup shredded American cheese (¼ pound)
- ¼ cup finely chopped green olives
- 2 tablespoons minced onion
- ½ cup soft butter
- 2 teaspoons prepared mustard

Cut loaf of unsliced whole wheat bread lengthwise. Cut each half loaf almost through to the bottom crust, into 6 slices. Combine 1 cup shredded American cheese, finely chopped olives, minced onion, soft butter and prepared mustard. Spread cheese mixture between the slices of bread. Place on cooky sheet and heat in hot oven, 400°, for 12 minutes or until piping hot and crusty. Makes 12 servings.

Coconut Peach Salad

- 1 package (3 ounces) cream cheese, softened
- 1½ teaspoons chopped candied ginger
- dash salt
- 2 tablespoons canned peach syrup
- 1 teaspoon lemon juice
- 8 canned cling peach halves
- ⅔ cup (about) flaked coconut

Combine cream cheese and salt. Stir in fruit syrup, lemon juice and ginger gradually; then beat until cheese is light and fluffy. Fill center of each peach half with 1 tablespoonful cheese mixture. Then sprinkle with coconut and top with a bit of maraschino cherry. Serve on crisp lettuce. Makes 4 servings.

Custard Ice Cream

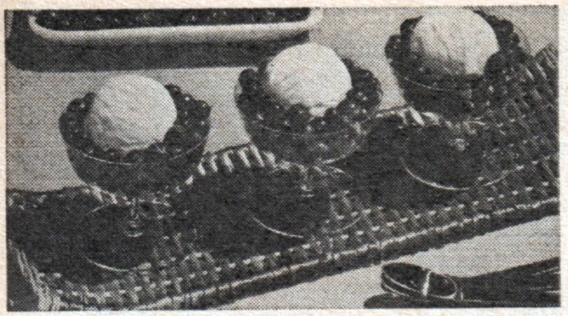
1 quart milk
3 cups sugar
½ cup all-purpose flour
4 eggs, well beaten
1 quart cream
1 tablespoon lemon extract
1 tablespoon vanilla
⅛ teaspoon salt
more milk to fill freezer ⅔ full (about 1 pint)

Scald the quart of milk in top of double boiler or over low heat. Mix flour with half of the sugar; add beaten eggs and blend. Pour part of the hot milk slowly into the egg mixture, stirring constantly. Return to remaining hot milk in double boiler and cook 40 minutes, stirring occasionally to keep it smooth. Allow to cool; then chill in refrigerator. (Ice cream will have a better flavor if it can stand 12 hours or overnight). Add cream, salt and flavorings and strain mixture as you pour it into a gallon freezer. Add more milk to fill freezer not more than ⅔ full. Freeze in hand-turned or motor-driven freezer, using a mixture of 4 parts crushed ice to 1 part ice cream salt. When ice cream is frozen, tip freezer to drain off all water. Before opening can, wipe lid carefully. Scrape ice cream off dasher and pack firmly in can. Cover with double thickness of wax paper and replace lid (fitted with cork or paper plug). Repack with a mixture of 4 parts crushed ice to 1 part ice cream salt. Cover with paper or heavy cloth. Let stand 1½ to 2 hours to ripen. Makes 1 gallon.

Homemade Strawberry Ice Cream

2 cups (1 pint) sliced fresh strawberries or two 10-ounce packages of frozen berries and omit sugar
½ cup sugar
1½ cups (7½ to 8 ounce jar) marshmallow whip
1⅔ cups (large can) undiluted evaporated milk
¼ cup lemon juice

Mash strawberries in bowl. Add sugar, marshmallow whip; allow to stand 25 minutes. Blend well. Chill evaporated milk in refrigerator tray. When soft ice crystals form around edges of tray about (25-30 minutes), whip until stiff (about 2 minutes). Add lemon juice. Whip very stiff (about 2 minutes longer). Fold the strawberry mixture into whipped milk. Spoon into refrigerator trays. Freeze until firm (about 3 hours). Serve garnished with fresh or frozen strawberries.



Fresh blueberries and raspberries combined with ice cream make this a summer treat.

Fresh Blueberry Melba

1 pint fresh blueberries
ice cream
1 cup fresh raspberries
3 tablespoons sugar
2 tablespoons fresh lemon juice
1/16 teaspoon salt

Wash blueberries and divide equally among 6 sherbet glasses. Top each with a scoop of vanilla ice cream. Wash fresh raspberries, crush and put through a sieve. Measure. There should be about ¾ cup. Blend in sugar, fresh lemon juice and salt. Spoon over ice cream and blueberries. Yields 6 servings.

Coffee Cream Soufflé

2 cups unflavored gelatine
⅓ cup cold double-strength coffee
2½ cups hot, double-strength coffee
1 cup sugar
⅛ teaspoon salt
1½ cups creamed cottage cheese
2 egg yolks
1 teaspoon vanilla
2 cups heavy cream
2 egg whites

Soften gelatine in cold coffee and dissolve in hot coffee. Add two-thirds cup sugar. Stir until dissolved and chill until syrupy. Meanwhile press cottage cheese through a sieve. Add egg yolks and beat. Add gelatine mixture and beat in. Whip cream and fold in. Beat egg whites until they form soft peaks and add remaining one-third cup sugar and salt slowly, continuing to beat. Fold two mixtures together gently. Let stand at room temperature until mixture will mound in spoon. Meanwhile bind a double strip of aluminum foil firmly around 1-quart soufflé dish or casserole, extending it 2 inches above top rim of dish. Spoon gelatine mixture into dish. Chill until firm. Remove strip. If desired, garnish top with grated unsweetened chocolate. Serves 8 to 10.

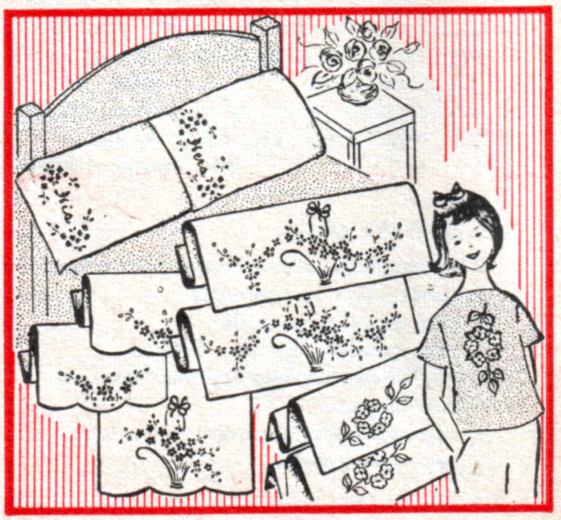
How To Use Designs

The removable center portion of this month's WORKBASKET contains some unusual designs for embroidery work or textile painting. Remove pages from magazine by holding the sheet on each side of staple and carefully pulling to keep from tearing it.

To place design on material either trace with carbon paper or use a hot iron and place design (red side) down on material. To determine amount of heat needed, cut any small design and place on a piece of material, then place paper on top of design.



Heat iron very hot but safely below scorching. Press, moving iron constantly over entire paper surface to distribute heat slowly. If iron is at proper temperature, several seconds are required; if not hot enough it may take a minute or more to get a good stamping. Design comes off faint at first; press until as clear as desired. Additional stampings or designs come off more quickly if made before pattern cools off.

When experiments with a small design are satisfactory, cut out desired design, pin or baste in place. Many fabrics contain a filler that scorches easily, some are synthetic. Treat both carefully and protect above design with tissue, heavier paper or cloth.

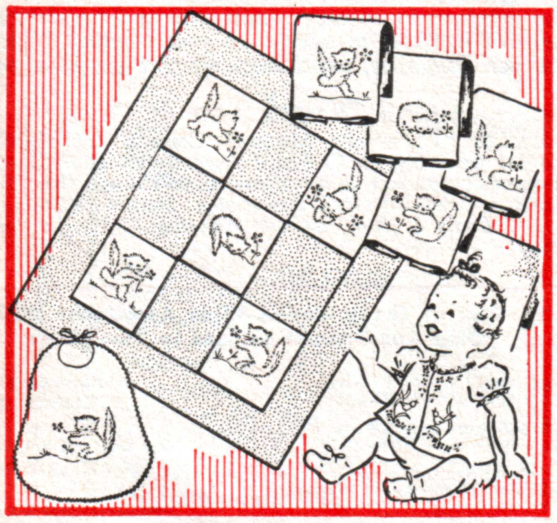
The designs given are adaptable to several kinds of fabric decoration—hand or

machine embroidery, textile painting or appliqué.

This easy-to-do basket and lazy daisy spray design will give an elegant look to pillow slips. A complete bedroom set could be embroidered in bright thread—or use soft pastel materials with brighter thread of same color.

His and Hers design combined with French knots would make a nice decoration for pillow slips, towels and other bath accessories. It would be attractive worked in white on white.

For the teen-agers in your family, try the circle of flowers for cropped tops. Use heavy thread in bright colors on colored denim or other fabrics. This design would also be nice for pastel linen guest towels or repeat design twice on pillow slips.



These little birds perched on a leaf will dress up many things for baby—gowns, dresses, sacques or kimonas. Use them as a pair facing each other and scatter the smaller sprays.

For a lovely crib quilt, place these flower-loving kittens in the center of 9 x 12-inch muslin blocks. Add alternate blocks of solid or small print and a 6-inch border.

These happy, playful kittens will also be at home on a set of tea or guest towels. Use them to decorate baby bibs, sunsuits and toddler's clothing.

I have ivy planted over a large terrace in front of my house. There is a tall grass coming up between the ivy. What can I do about this since weeding is almost impossible. Mrs. E. F. K., Pennsylvania.

The chemical used in a weed control spray depends in part on the grass or weed species present. Probably Crag herbicide, a relative of 2-4-D, may be used successfully if applied while the grass is still young. It is commonly used as a deterrent and a killer of very young grasses, and should not injure the ivy. An ounce will give 750 square feet one application. All large plants of the unwanted grass should be pulled before the area is sprayed.

Why do the buds of my Hoya vine never bloom? I water it once a week and feed it about once a month. Mrs. A.J.K., Ohio.

Try placing the Hoya carnosa in the lightest place possible during the summer. Water it oftener than once a week while it is growing actively, being careful that it drains quickly. As fall approaches decrease the amount of water, discontinue any feeding, and allow the plant to have a cooler temperature. This ripens the wood. Then when growth starts in the spring and is stimulated by more food, water and heat, the buds develop and flower. Hoya plants that are not well drained often develop root nematodes and this will cause the plants to refuse to bloom. If root nematodes are present, take cuttings and start new plants in a new sterile soil and discard the old one.

I have a Hibiscus plant which has not bloomed since it was quite small. The leaves seem to curl and feel like parchment. Could you tell me what might be wrong with it? Mrs. D.L., Kansas.

There are so many species of Hibiscus that it is impossible to give directions for their growth without knowing the species. Probably the plant you have is the perennial rose of Sharon. It needs a well drained soil and lots of water. Excessive drying of the soil often causes the leaves to curl and lose their vitality.

The Bougainvillea vine that I own has failed to bloom for three years. It bloomed profusely the first year I purchased it. What should I do for it to cause this vine to bloom? Mrs. P.E.W., Michigan.

The Bougainvillea as an indoor plant should be run rather dry in the fall and the side branches pruned back hard. In the spring after growth has increased, watering should be done more often and the plant should be fed a nitrogenous fertilizer. A coarse soil that drains well is essential for pot grown specimens.

Would you please tell me how to grow clematis from seed? Mrs. K. R., Illinois.

The small flowered species of clematis may be grown from seed. Seed should be sown in the fall ¼-inch deep in the cold frame or seed flat. Plants should be large enough to transplant to their permanent location a year later. The large flowered hybrids will not come true from seed. They are propagated either by grafting, cuttings or layering.

My oriental poppies send up buds but before they bloom they turn black and dry up. The plants seem healthy and full of buds. Could wet weather cause the bloom failure? Mrs. J. S., Pennsylvania.

Wet weather may be the cause of the bloom failure but the surplus water at the roots rather than on the buds is more likely the cause. Perennial poppies require light rich soil that is well drained. If the soil remains wet and cold at blooming time the buds as well as the leaves may become droopy and fail to open.

Hazel Miller

My adventure with African violets came quite by accident. My married daughter had several unhappy violets on her kitchen window sill. One day she brought them home to me and asked, "mother, can you do anything with them?" Now I had never tried to grow African violets but this was a challenge my green thumb could not turn down. The stems were dampening off and the leaves were looking gray and sick.

I immediately turned to a garden book for help but found nearly everything suggested too costly or otherwise impractical for me, so I had to improvise.

I transplanted five violets from the hard soil in their original pots to a large shallow tray that would fit the space in the one window available. I used the following method. From a crumbling old fir log in the garden I obtained a bucket of fine pulp, this I mixed with rich leaf mold and a small amount of sandy soil. I filled the tray with the mixture, placed the plants in it and set them in the east window. It was winter then, but as the season advanced the sun became too bright for them and the leaves began to spot. I covered the window pane with a sheet of light blue tissue paper which filtered the bright light and made the violets very happy. I gave them a feeding of nitrogenous fertilizer once a month and they bloomed their hearts out. There was never a day without blossoms all year long.

However there came a time when the plants had to be divided as the clumps overran their domain. I decided on two planter boxes the width of the window. I used the same mixture of soil as previously and added several additional colors to the original group of plants.

African violets seem to enjoy people and attention. They are a never ending source as a gift for a sick friend or for any occasion. All I have to do is remove one from the planter, put it in a pot, add colored

African Violets

(Continued from Page 33)

paper around pot and it becomes a very acceptable present.

African violets come in a variety of colors from darkest velvet purple to blue, pink, yellow, or orchid or white and variegated. Some are more delicate than others but all respond to good care.

I devised a way to keep them moist when I have to be away from home, even for as long as a week or more. I save all empty tin liquid soap containers, the kind with the screw cap on a neck in the center of the can. Cut out the bottom and scrub thoroughly, then push the neck down into the soil between the plants. Fill it with water and it becomes a very effective automatic waterer. The speed the water seeps out may be further controlled by drawing a soft cotton cloth through the neck of the can letting it extend into the soil like a wick. The tighter the fit of cloth in the neck of can, the slower the seepage of water to the plants. The watering funnels may be painted to dress them up if desired.

I also propagate new plants by setting a leaf in water until rootlets appear, then place in soil. However, I find it far easier and less effort to partially break the under side of a leaf and bury it in the soil while still attached to the parent plant. When it is well rooted, it becomes a replacement to fill the space left vacant in planter when a blooming plant becomes a gift for a friend.

I highly recommend flats or planters for African violets. They are much easier cared for and make an uncluttered showy display that could never be attained with an array of pots.

Flower Arranging

(Continued from Page 35)

come really good at it. Study the following, then give it a try.

Flower arrangements may be made from any type of flower and its buds. Pick your flowers in early morning while they are still wet with dew. Cut long stems on as drastic a slant as possible, then plunge them immediately into pail of warm water. Keep this pail of flowers in cool, dark room for several hours before arranging.

The success of any arrangement depends upon right colors. I like to create arrangements that are of same color tones as my walls. For instance, I find red rose arrangements very effective in my pink-walled dining room. In such arrangements the tones of flowers should be great deal lighter or darker than wall.

Flowers can also be used as accent colors to set off furnishings. For instance, coral or yellow flowers set off gray surroundings, and red, gold, and pink nicely accent green.

If you do not have sufficient blooms of one kind of flower, you can use others as long as they are of same color. That is, if using red, flowers can range anywhere from deep red to very light pink.

As for types of arrangements you can create and use, the sky's the limit. Stick to severe modernistic; country cottage type; give it that Oriental touch, or go ahead and create your own. As long as you are happy with it, that is all that matters.

As you begin to take flower arranging more seriously, you will find pottery, green leaves, and driftwood are needed to create definite moods.

Simple arrangement of Pink Parfait roses.

Containers need not be a problem for the housewife. Any object that holds water can be used. These can be hidden nicely by broad leaves or a low swirl of flowers.

The few tools that you will need are: sharp knife, scissors, floral clay, florist wire, and flower holders —and of course, a healthy imagination.

When constructing your arrangement, decide first upon shape you wish to create, then go ahead. Here are a few things to remember while working on floral arrangements: All arrangements should form some sort of triangle; actual height should be 1½ times width of container; all flower stems should protrude from one central point; no prominent blooms should be on same level. Stagger them for greater interest; about 4 to 5 buds, and 7 to 8 flowers are sufficient in most arrangements; for balance, use lighter colors in upper section—bolder colors at base; always hide container unless it is needed to complete picture.

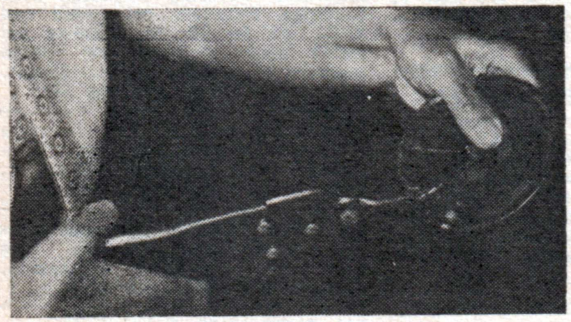
Tin-Can Crafting

Robert P. Hammond

Tin-can craft is a hobby that may be enjoyed by many. It requires very little space and only a few inexpensive tools. There is almost no cost to the raw materials and they are available everywhere. For some it even provides pin money.

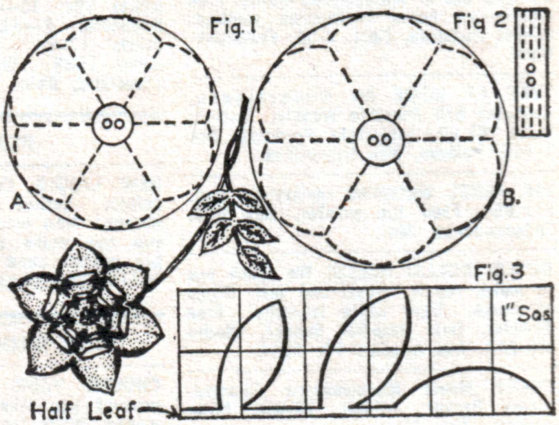
The number of things which can be created from these salvaged cans is almost limitless. Among the decorative items are such things as flowers, sun bursts, candle holders and sconces, decorated bottles, plaques, medallions, weather vanes, masks, bells and Christmas decorations. These can be used to beautify your home, as gifts, or in many instances can be sold.



Perhaps the leading exponent of this craft in the United States is Sylvia W. Howard, authoress of the book, "Tin-Can Crafting", who in this exclusive interview brings not only some suggestions but an actual pattern and instructions for making decorative flowers as a first project.

The only tools necessary are a pair of light metal shears (a pair of kitchen shears will do), a pair of heavy duty compound leverage snips, a pair each of long-nose and jeweler's pliers, an ice pick, a ruler and a grease pencil or crayon for marking. In most cases, these can be found in the existing household tool box. To facilitate your work, according to Mrs. Howard, it is a good idea before you start to make sure all these tools are sharp.

With this simple equipment, the next step is to round up your raw material - basically tin cans of various sizes, shapes, and colors. The rich gold-lacquered lining of many fruit juice cans make particularly effective decorations but



the soft silver of an empty sardine can, appropriately used, will be just as attractive. Some old strings of beads, decorative pins, unmatched earrings, loose stones, pearls, lamp pull chains, a little wire, and a can of household cement can make the decorative variations inexhaustible. In fact, a number one rule for most tin-can crafters is to employ nothing but salvage materials.

Assuming that you now have an assortment of tin cans and the basic working tools, here is how you would go about making the flower illustrated, as explained by Mrs. Howard.

First obtain two can lids, 3¼ inches in diameter (A), and a third 4 inches in diameter (B) and mark

Tin Can Crafting

(*Continued from Page 42*)

off the notching as indicated in this drawing. If you can't find the right size cans, cut circles from a larger can or from a piece of flat sheet tin. Then put two holes in center of each lid using ice pick. These will be used later to thread the wire stem through. Next cut down to the center circles (½-inch diameter for the smaller size, ¾-inch diameter for the larger) and divide lid into six petals (figure 1). Shape each section as shown by broken line to form a petal (see photograph). Take the smaller lids and using a pair of pliers, make a slight lengthwise bend through center of each petal, then make two cross-wise rolls toward the back or under each petal. Shape larger lid in same manner. Shape flowers so the two 3¼-inch size lids will nest one inside the other, then arrange them both inside the larger lid. Cut a small piece of tin, as shown in figure 2 and curl the strips to simulate stamens. Pierce with ice pick and put inside flower. Now wire all parts together tightly and twist at bottom to hold firm. Leave enough extra wire to use for a stem and wrap this with green florist's tape. Bend and work rose petals into shape until they look real.

Now take another flat piece of tin and trace the leaf design given on chart (figure 3). Half of leaf pattern is given; each square equals one inch. Use tin snips to cut it out, score veins on right side by pulling screw driver along the lines; wrap stem with florist's tape and attach to flower stem.

This rose is a elementary design but it makes a good one for the beginner to familiarize herself with the equipment. The flowers are not only decorative by themselves but they may be combined into bouquets and have many other decorative uses. From this stage on the field is almost limitless.

So, if you yould like to try an exciting new hobby, get yourself a pair of tin snips and a collection of empty cans and let your latent artistic abilities emerge.
